### WHAT DO THE COLOURS ON THE CHART MEAN?

The colours on the chart represent travel recommendations from more than 30 avalanche experts. Avalanche records show that many past accidents could have been prevented if the victims had limited their travel to the following colours:

**NO LIMITS**

**0% HISTORIC ACCIDENTS PREVENTED**

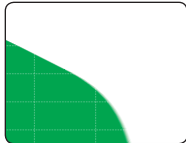

**LIMITED TO GREEN AND YELLOW ONLY**

**40%**

ACTUAL PREVENTION DEPENDS ON AVALANCHE CLIMATE AND ELEVATION.

**LIMITED TO GREEN ONLY**

**75%**

Ultimately, it is up to you to choose the prevention level you are comfortable with.
